

Lucas

**Battery Power for all
applications, from a
UK brand you can trust.**

Premium Performance

Lucas Classic and Premium automotive batteries are maintenance free, have enhanced starting power and calcium technology, all of which enables them to carry on working, even under the toughest conditions. With 99% of the vehicle parc covered by these market leading ranges, you can truly Trust Lucas.

Lucas batteries are built to the very highest specification to meet the demands of today's world. Modern vehicles require premium performance in order to fulfil the electrical requirements of their increasingly sophisticated technological features.

Classic

- Good starting performance
- Portable and easy to install
- Carry handle
- Extended warranty

Premium

- High quality assured
- Maintenance free battery with handle
- Standard warranty
- Enhanced starting power
- Calcium technology
- O.E. specification

Supreme

- For vehicles with extremely high performance demands
- Ideal for vehicles with a large number of electrical devices
- Supreme quality product
- Perfect for use with diesel engines
- Long service life
- Exceeds O.E. specifications

Stop-Start Technology

Future Ready

The car market is fundamentally changing. There has been a significant growth in the O.E.M market over the last decade and it's predicted that in 2020 only 8% of O.E.M battery fitments will be traditional SLI (starting, lighting, ignition) batteries. Reports suggest that by 2020 the EFB & AGM replacement market is anticipated to be 1 million batteries.

The Lucas Fusion AGM & EFB battery ranges feature even higher cyclic stability and recharge more quickly than conventional lead-acid batteries. These characteristics are essential, especially when it comes to advanced systems which employ regenerative braking and other fuel-saving technologies.
